

HPD UNIQUE IDENTIFIER: 24921

CLASSIFICATION: 09 51 00 Acoustical Ceilings

PRODUCT DESCRIPTION: Can be cleaned with diluted solutions of ammonia, chlorine, quaternary ammonium and hydrogen peroxide Can be cleaned and disinfected effectively by steam cleaning Does not contribute to the growth of MRSA Has a low particle emission (ISO Class 4,ISO14644-1) for better air cleanliness. The edges are sealed. High sound absorption (NRC = 0.90)Optimal design freedom due to a large selection of edges (lay-in, tegular and concealed)Ideal projects: Healthcare No added antimicrobial treatment: Stone wool provides no sustenance to microorganisms and is naturally sag resistant. Rockfon is part of the ROCKWOOL Group.

CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpdc-collaborative.org/hpd-2-2-standard

ROCKFON® MEDICAL™ PLUS

PRODUCT THRESHOLD: 1000 ppm

RESIDUALS AND IMPURITIES CONSIDERED: Yes

RESIDUALS AND IMPURITIES NOTES: Residuals and impurities were considered based on provided supplier data.

OTHER PRODUCT NOTES: This declaration is based on a pre-cured breakdown of the material ingredients. A mixture of chemicals called binder is applied on the stone wool fibers to adhere them together. Paints are also applied to the product. The liquid binder and paints are solidified / dried after chemicals react during the curing process. Therefore, hazard warnings on the HPD might not be applicable as the physical state of a chemical changes during the curing process.

STONE WOOL, BIOSOLUBLE

ID: 65997-17-3

HAZARD SCREENING METHOD: Pharos Chemical and Materials Library HAZARD SCREENING DATE: 2021-05-27 15:18:12

#: 75.0000 - 90.0000 GS: LT-UNK RC: PreC NANO: No SUBSTANCE ROLE: Structure component

| HAZARD TYPE | AGENCY AND LIST TITLES | WARNINGS |
|-------------|------------------------|--|
| None found | | No warnings found on HPD Priority Hazard Lists |

SUBSTANCE NOTES: Stone wool products produced by ROCKWOOL are continually monitored and are in fulfillment of the CLP regulation Annex VI Note Q conditions (stone wool can also be referenced by the EC Number: 926-099-9). The pre-consumer recycled content comes primarily from recycled slag. The percent by weight of the substance is disclosed as a range to account for variances across the products covered by this HPD.

CAPROLACTAM

ID: 105-60-2

HAZARD SCREENING METHOD: Pharos Chemical and Materials Library HAZARD SCREENING DATE: 2021-05-27 15:18:16

#: 0.0000 - 0.7000 GS: LT-UNK RC: None NANO: No SUBSTANCE ROLE: Residual

| HAZARD TYPE | AGENCY AND LIST TITLES | WARNINGS |

| CERTIFICATION AND COMPLIANCE NOTES: The environmental impact reference product was Artic® (15 mm). To calculate product-specific environmental impacts of the products covered by this HPD, apply the relevant scaling factor found on page 4 of the EPD. | | | |

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

No accessories are required for this product.

Section 5: General Notes

This HPD covers the following products: Medical Plus-A, Medical Plus-Conc, and Medical Plus-SL/SLN and includes each product's formulation specific to the Marshall County, Mississippi, USA manufacturing facility. These products have very similar compositional chemistry with slight differences in terms of percent by weights as well as edge type and / or coatings. These variances are limited to 10% or less of the total mass of each product.

MANUFACTURER INFORMATION

MANUFACTURER: Rockfon
ADDRESS: 4849 S. Austin Avenue
 Chicago Illinois 60638, USA
WEBSITE: rockfon.com

CONTACT NAME: Warren Dudding
TITLE: VP of Business
PHONE: 1-800-323-7164
EMAIL: warren.dudding@rockfon.com

The listed contact is responsible for the validity of this HPD and attests that it is accurate and complete to the best of his or her knowledge.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
