PREPARING FOR LEED V5

SIMPLIFY THE COMPLEX

At Rockfon sustainability is the standard, not the exception.

COMMON MATERIALS FRAMEWORK ALIGNMENT

LEED v5's Materials & Resources (MR) category aligns with the Common Materials Framework (CMF), a multi-attribute approach to evaluating building products across five key sustainability impact areas.

Human Health

Circular Economy

Climate Health

Ecosystem Health

Social Health & Equity

HUMAN HEALTH

Material Transparency and Optimization

Transparency documentation helps teams make informed, health-conscious material selections.

	HPD	Red List Approved Declare Label	C2C Certified [®] Silver	Multiplier
Stone Wool Ceilings*	✓	✓	✓	1 to 2
Chicago Metallic [®] Grid Standard	✓			1
Chicago Metallic [®] Drywall Grid	✓			1

*93% of Rockfon stone wool ceilings have earned either a Red List Approved Declare Label, C2C Certified[®] Full Scope Silver certification, and / or an HPD

Credit MRc4: Building Product Selection and Procurement

Indoor Air Quality

Low VOC materials contribute to optimal IAQ. To earn the first of two points in LEED v5, a space must achieve 90% compliance for three specified product categories -- ceilings, paint and flooring.

	UL Greenguard Gold	Requirement
Stone Wool Ceilings*	✓	>90% Achievement for each product category
Chicago Metallic [®] Grid Standard Colors	✓	
Chicago Metallic [®] Drywall Grid	✓	

*All stone wool ceiling tiles comply with this credit

Credit MRc3: Low-Emitting Materials

CIRCULAR ECONOMY

Product circularity is essential to reduce construction and demolition waste. Designing for a circular economy includes strategies such as disassembly and take-back programs.

	C2C Certified® Circularity Silver	Recycled Content	Multiplier
Stone Wool Ceilings*	✓		1
Chicago Metallic® Steel & Aluminum		40% - 78%	.21 - .7

*93% of Rockfon stone wool ceilings have earned C2C Certified® Circularity Silver

Credit MRc4: Building Product Selection and Procurement

CLIMATE HEALTH

Environmental Product Declaration (EPDs) provide a clear, consistent way to evaluate environmental impacts, including embodied carbon.

	Product Specific EPD	Multiplier
Stone Wool Ceilings	1	1

DIGITIZING SUSTAINABILITY

Rockfon is simplifying sustainability through digital partnerships with ecomedes and Building Ease.

- Search, compare, and download products with verified sustainability claims
- Pre-check compliance with sustainable building standards including LEED & WELL
- Access product certifications and explore corporate sustainability initiatives

Discover Rockfon’s sustainability documentation and explore our digital partnerships
