Available in straight 12' lengths or cut to length as an engineered product (Shop drawings required).

Submittal drawings are required for all Engineered Infinity projects.

Unpainted galvanized grid clips, splices, and corner splices included on Engineered projects.

Infinity™ Color Chart

Standard Colors:

Premium Colors:

Metalwood® Coordinating Painted Finishes*:

Woodscenes® Painted Finishes†:

* Metalwood Woodgrain Finishes unavailable on Infinity products; use coordinating solid finish.

† Woodscenes Woodgrain Finishes are a decorative powder coat finish that replicate real wood; variations in color and pattern will occur.

Note:

- Woodscenes Woodgrain Painted Finishes are applied parallel to the length of the trim.
- See rockfon.com for more information on color options.

Colors shown are reproduced as close as possible to actual product color within the limitations of printing technology. Color chips are available upon request and should be reviewed before making a final selection. Variations in color matches of system components to ceiling panels can result from slight differences in texture, room lighting, painting process and subjectivity of observers.

Reveal Edge Perimeter Trim

Reflective Ceiling Plan Example

* Field modify Corner Splice Plate to achieve desired angle greater than or less than 90°.

Compatibility

Infinity R Reveal Edge Profile is compatible with:

- Chicago Metallic® Ceiling Suspension systems
- Rockfon Metal Ceiling suspension systems
- Industry standard T-Bar grid systems

See datasheets of Chicago Metallic Ceiling Suspension systems and Rockfon Metal Ceiling systems for more information.

Chicago Metallic Grid Profiles

For best appearance, use flat lay-in panels with standard profiles. Use reveal edge tiles with slotted grid or double-slot grid profiles.
