Woodlands™ Solid Coordinating Colors

Metalwood® Solid Coordinating Colors

Woodscenes® Finishes

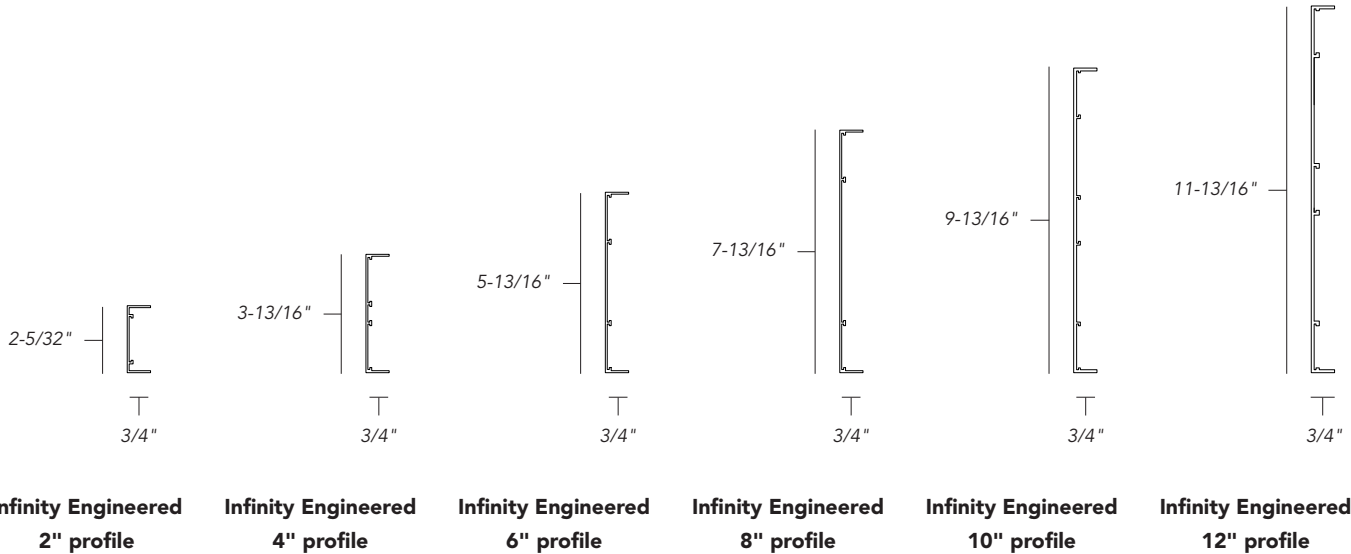

Colors shown are reproduced as close as possible to actual product color within the limitations of printing technology. Color chips are available upon request and should be reviewed before making a final selection. Variations in color matches of system components to ceiling panels can result from slight differences in texture, room lighting, painting process and subjectivity of observers.

As stated in CISCAs "Metal Ceilings Technical Guidelines," site conditions can impact installed visual appearance of metal ceilings. Usage of high gloss and metallic finishes in areas of critical lighting may alter final appearance and should be considered for finish selection.

Rockfon® Infinity™ Standard Perimeter Trim

Profile Sizes - Available as Straight 12' Lengths

Compatibility

Infinity Engineered Straight Standard Profile and Infinity Engineered Curved Standard Profile are compatible with:

- Chicago Metallic® Ceiling Suspension systems
- Rockfon Metal Ceiling suspension systems
- Industry standard T-Bar grid systems

See datasheets of Chicago Metallic® Ceiling Suspension systems and Rockfon Metal Ceiling systems for more information.
