Rockfon® Planar® Macro and Planar® Macroplus® Linear Ceiling System

Features & Benefits

- Square edge linear panel system, open reveal with optional filler strip (Planar Macro) or integral filler strip (Planar Macroplus).
- Create linear designs for interior or exterior spaces.
- Curvilinear designs for interior spaces possible with carrier option.
- Visual design continuity from exterior to interior.
- Easily incorporates lighting, air, audio and other services.
- GREENGUARD Gold certification available with Woodlands™ woodgrain finishes.

Applications

- Airports
- Entrances
- Transit Facilities
- Retail
- Conference Centers
- Lobbies

Project – National Cowboy and Western Museum
Product – 6" Planar® Macro®

Colors shown are reproduced as close as possible to actual product color within the limitations of printing technology. Color chips are available upon request and should be reviewed before making a final selection. Variations in color matches of system components to ceiling panels can result from slight differences in texture, room lighting, painting process and subjectivity of observers.

As stated in CISCA's "Metal Ceilings Technical Guidelines," site conditions can impact installed visual appearance of metal ceilings. Usage of finishes in areas of critical lighting may alter final appearance and should be considered for finish selection.

- Metalwood, Woodscenes and Woodlands are designed to replicate the look of real wood. Inherent variations in color and grain may arise with these finishes as part of the aesthetic.
- GREENGUARD Gold certification available with Woodlands™ woodgrain finishes.
- All Wood Look finishes will have the grain pattern applied parallel to the length of the panel.
- Metalwood Woodgrain finishes are a 0.008" vinyl laminate which replicates the look of real wood.
- Woodscenes finishes are a decorative powder coat finish replicating real wood.
- Woodlands and Woodscenes finishes are suitable for interior and exterior use.
- Metalwood finishes are for interior use only.

	48" Acoustical Blanket 1-1/2" x 1-1/2# Black	58.01.102.008	250514	100'	4'	400

Acoustical Performance

Panel Type	Reveal	Acoustical Insulation	NRC
Perforated Panel	Closed	Acoutex	0.70
Perforated Panel	Closed	1" x 1# Insulation	0.75
Perforated Panel	Closed	1" x 1.5# Insulation	0.80
Perforated Panel	Closed	1.5" x 1.5# Insulation	0.95

For a closed reveal, panels with an integral filler or open reveal panels with a separate filler strip are used.

Air Diffusers

	Description	Catalog Number	Rockfon Material Number	Packaging	
				Pieces per Carton	Weight
	Air Diffuser - 2 Slot Unit, 8" Collar, 9" Width	58.01.072	250510	1	10
	Air Diffuser - 4 Slot Unit, 10" Collar, 17" Width	58.01.074	250511	1	13
	Air Diffuser - 6 Slot Unit, 12" Collar, 25" Width	58.01.076	250512	1	16
	Air Diffuser - 8 Slot Unit, 14" Collar, 33" Width	58.01.078	250513	1	20
	Round Edge Planar Pattern Control	58.01.108	250519	1	1
	Square Edge Planar Pattern Control	58.01.107	250518	1	1

Extended lead times apply - Order diffusers prior to panel order.

Air diffusers are designed to install as tailored components of the Planar and Planar Macro Linear Metal Systems.

Number of slots based on 4" panel.

Air diffusers are compatible with Symmetrical Carrier only.
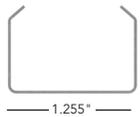

One pattern control is needed for each slot opening on air supply units.

Standard collars are top-mounted; oval, side inlet collars are special order.
